CSO Executive Seminar Series On™: PCI Compliance

January 17, 2008 | Los Angeles, California
The Westin Bonaventure Hotel & Suites

April 2008 | New York, New York

PCI-DSS (the Payment Card Industry Data Security Standard) is having a significant impact on the way businesses address transaction processing and the security of related data. Hear from industry sources and compliance experts as they discuss the business value and benefits to be gained from PCI.

CSO Executive Seminar Series On™: Disaster Preparedness

January 24, 2008 | New York, New York
New York Marriott East Side Hotel

Are you prepared? We hear that question a lot, but the reality is that most organizations do not have well thought-out disaster preparedness and recovery plans. The CSO Executive Seminar Series on Disaster Preparedness will help business and risk leaders get their organizations ready for the expected and the unexpected. We'll look at the types of disasters we need to be preparing for and drill down into building a plan specific to your organization.

CSO Perspectives Conference™ *Becoming the Complete CSO*

March 16 - 18, 2008
InterContinental-Buckhead | Atlanta, Georgia

This executive-level conference will focus on the strategic and tactical skills required to attain a leadership role within your organization. We'll look at best practices, tools, advice and technologies to help you advance your career, gain a seat at the table and become a driving force within your enterprise. We'll also recognize this year's Compass Award Winners, those who exemplify leadership and excellence in the field.

CIO Leadership Conference

Leadership on the Frontiers of Change

May 18 - 20, 2008
Sheraton Hotel Boston | Boston,
Massachusetts

Connect with leading CIO's for discussions on leadership and get insight from top CIO thinkers on what it takes to become a successful leader. Co-produced by *CIO* magazine and the CIO Executive Council this conference will honor up-and-comers with the Ones to Watch Award.

CSO Executive Seminar Series On™: Identity Management

May 2008 | Chicago, Illinois

The CSO Executive Seminar Series on Identity Management brings together top security and privacy executives to discuss current pressing identity management issues and legal ramifications. During this Seminar attendees will learn first hand how organizations that properly implemented identity management strategies have become industry leaders.

CIO & CSO Business Continuity Forum

July 15 - 16, 2008
New York Marriott at the Brooklyn Bridge |
New York, New York

Join your fellow CIO's, CSO's and CTO's as *CIO* and *CSO* magazines present the key strategic and tactical skills necessary to address the issues of continuity, recovery and resiliency in your enterprise.

CIO 100 Symposium & Awards Ceremony

August 24 - 26, 2008

The Broadmoor | Colorado Springs, Colorado

At this annual event, the nation's top IT executives will gather for three days to hear from, and honor, the 100 most accomplished CIO's for the year while attending sessions that focus on strategy innovation.

Digital ID World

September 8 - 10, 2008

Hilton Anaheim | Anaheim, California

Digital ID World is your source for straight talk, hard-won lessons and practical insight derived from real-world deployments. You'll hear from enterprise IT professionals who will give you their unvarnished views on what it took to achieve success. Digital ID World is the event for learning how to help manage your business with identity.

CSO Executive Seminar Series On™:

eDiscovery

September 2008 | New York, New York

Changes to the Federal Rules of Civil Procedure are creating a small storm as businesses begin to understand the new rules governing eDiscovery and realize that in many cases they aren't remotely prepared. In addition, many general counsels are just coming to understand the impact of these changes. But for the security and technology teams, the new eDiscovery rules will require the drafting, implementation and enforcement of policies that govern document and information retention, as well as investments in the technology to manage this process. Failure to be compliant with these rules can have significant negative implications for your organization.

CIO|09 The Year Ahead

November 9 – 11, 2008

Loews Coronado Bay | Coronado, California

CIO|09 is *CIO* magazine's annual forward-looking meeting for CIO's and senior executives from leading business, government and non-profit organizations. We'll explore major trends in the economy, politics, jobs and people, law and society, technology, global citizenship, sourcing, and the future of IT. We'll analyze the impact these issues are likely to have on business—and the CIO's role—over the coming 6-12 months. We'll help participants incorporate all this into their IT strategy for the upcoming year by having them share best practices and tactics for the problems and opportunities these trends present.

CIO Executives Roundtables

Throughout 2008 | Various Cities

Discuss IT strategies and share best practices during these morning round table discussions. Network with senior IT executives in your local area.
